at Elmhurst College

for students entering grades 1-5

July 17 - August 4

Enroll for one, two, or all three weeks!

Are you looking for Robotics? Something in the Sciences, Math, Technology, History, or the Arts?

Find exciting topics that challenge and inspire at our world class summer programs for students entering grades PreK-12!

Problem solving, creativity, critical thinking, and innovation are inherent in all courses. Active, hands-on participation and discovering new ideas and their application comprise a framework for classes, taught by teachers outstanding in their fields.

All summer programs offer full day and half day options, as well as before care; select programs offer after care. Free transportation to and from Elmhurst College is provided from numerous locations for Project '17 and the Tinker-a-Thon.

Details, courses, descriptions, and online application available at www.centerforgifted.org
