Weekly All-Star Line Up

Reading:

This week, we will read an informational text titled *Amazing Animals.* Students will use selection details as clues to make conclusions. Students will be able to explore more information about those eight animals using tablets and educational websites.

Math:

In math, we will begin Chapter 7: Compare Numbers. Students will model and compare two-digit numbers by using symbols for less than, greater than, and equal to, to determine which number is greater and which is less. We will take the Mid-Chapter quiz this week.

Science:

We will begin our next unit: Parts of a Plant. Students will learn that plants have different parts that help them survive and grow.

Social Studies:

We will continue to complete spring activities.

Practice, Practice, Practice!

Please practice sight words and math facts at home weekly.
