Scoring

There are 10 frames of bowling. Each bowler gets 2 balls per frame. Knocking all the pins down on your first ball is a strike [X], worth 10 points plus the values of your next **2 balls** [2 attempts]. One point is scored for every pin knocked over. Bonuses are awarded for strikes and spares [/]. If you knock all the pins down with your second shot it is called a spare [/] and worth 10 points plus the value of your **next ball** [1 attempt]. A perfect game in 10-pin bowling is worth 300 points
