

WS: Surface Area and Volume of Cubes

Name: _____

Directions: Find the Surface Area (SA) or Volume (V) of the following. Remember your correct units. (HINT: There are not units listed...so use units² or units³)

$1 \cdot SA = \underline{\hspace{2cm}}$  12'	$6 \cdot SA = \underline{\hspace{2cm}}$  5"
$2 \cdot V = \underline{\hspace{2cm}}$  8' 8' 8'	$7 \cdot V = \underline{\hspace{2cm}}$  4" 4" 4"
$3 \cdot SA = \underline{\hspace{2cm}}$  24'	$8 \cdot V = \underline{\hspace{2cm}}$  6' 6' 6'
$4 \cdot V = \underline{\hspace{2cm}}$  25" 25" 25"	$9 \cdot SA = \underline{\hspace{2cm}}$  13"
$5 \cdot SA = \underline{\hspace{2cm}}$  70"	$10 \cdot V = \underline{\hspace{2cm}}$  3' 3' 3'
